Cornwallis recognised in 2012 Recruiter Fast 50 list

Thursday 19th January 2012

This month saw the publication of this year's Recruiter Fast 50 list, featuring the fastest growing privately owned staffing companies in the UK. The list is researched and compiled by Boxington Corporate Finance according to compound annual sales growth rate over most recent three year financial reporting period and with a minimum level of sales of £5Million in each of those three years.

Cornwallis Elt was placed 26th in the list with an average compound annual growth rate of 19.35%. Tim Evans, Managing Director of Boxington commented; "This Fast 50 captures businesses that have grown in recession, and have another recession coming in. It will be difficult, but all of them look well positioned in their growth to weather the storm well. All of the Fast 50 have shown they've got the substance and momentum to endure hard conditions."

With the forthcoming release of 2011's accounts and another strong year of growth behind us, we feel confident that we are indeed well placed to continue building upon our recent success and hope to appear again in the Recruiter Fast 50 list in 2013.
