## Insurance Technology

Cornwallis Elt has developed an exceptional practice servicing the IT and Change Management recruitment needs of the Insurance community. We have an outstanding track record of delivery driven by our superb candidate network and database in this sector and our detailed understanding of our clients' businesses, their systems and the challenges they face.

Our clients include some of the most successful and pre-eminent firms within the London Markets, leading Insurance Brokers and Global Insurance and Risk Services companies.

Our primary focus is on recruiting "Business Facing Technologists" with a deep understanding of Insurance business products and processes as well as the specific applications and technologies within this area. We recruit on a permanent, contract and retained search basis.
